ISSUES AND RISKS

CLG has provided an excellent overview of how its work contributes to the sustainable development agenda. This could have been made stronger by identifying where it can make its greatest contribution within the reporting period of the SDAP itself. This would help to ensure progress on embedding SD across the organisation. Long-term goals are obviously very important but the intermediate milestones that will achieve these goals should also be considered and set out within the SDAP. This could be achieved by clearly connecting the next year's SDAP with organisational priorities, people's work objectives and publicity campaigns.

There is still much work to be done to ensure that SD is fully embedded into all the work CLG does, such as focusing more on incorporating SD into Planning and National Policy Statements (PPSs and NPSSs), and undertaking more two-way engagement on SD at regional and local levels. With regard to CLG's responsibility for the provision of house building targets the SDC would have liked to see CLG use this SDAP to explain *how* it is ensured that housing programmes respect environmental limits. In particular, how is CLG managing the planning system to ensure pressures as a result of development are reconciled.
